our clays for brick and terra cotta purposes, has completed the kiln, which is located in Mr. R. E. Carruthers barn on Jerome St. and 15th. The tests have not been made yet. Those who have samples of clay they necessary for a sample.

ADVERTISING.

There were received 442 letters during the month of February although we have not yet placed our advertising for another year. This shows that the advertising we have already done has developed a very large correspondence. Scarcely a day passes now that some stranger who has been in correspondence with the Chamber of Commerce puts in an appearance.

The Promotion Committee purchased 3,000 copies of the special edition of the Astorian, which was printed Sunday, February 23rd., sending out 2000 of them immediately to our mailing list and retaining 1000 to be used in connection with our correspondence from day to day.

eards which have been put up in the hotels, railroad and steamboat depots and waiting rooms for the benefit of experience of an expert in his line. the strangers who may come in.

A write-up of the resources of Clatsop County have been prepared and forwarded to Secretary Wisdom, in charge of the Oregon office of the A. Y. P. Exposition which is to be held next year in Seattle. Photographs are being prepared by Photographer Coe and while he has not se-

cured all of the pictures ordered it is expected that he will have them ready any day.

We have received a letter from Professor Ralph S. Tarr of the Department of Physical Geography of Cornell University of Ithaca, N. Y., stating that he is engaged in the revision of the Tarr-McMurry geographies which are extensively used in various parts of the country. He has ing. Seattle Watchmaking School, torian. asked for such literature as bears directly upon this section and the same has been sent him. He has also asked for original photographs typiwish tested should bring them in this cal of this locality and the same will week at the latest. Fifty pounds is be sent him in due course. A copy of the literature prepared for the Seattle World's Fair book has been also sent to Professor Tarr.

Professor John C. Pierson, Principal of the High School of Beloit, Wis., has asked for pictures of Astoria to be used as stereoptican slides to illustrate a lecture he is delivering on the West and this will be forwarded him as soon as they are taken.

We have also sent him a copy of the literature for the Seattle World's Fair book.

WANTS POTATO LAND.

We have received a letter from Mr. Thomas Warwick of Tekoa, Wash. asking to rent 50 acres suitable to potatoes in this locality and if any one can make a business arrangement with Mr. Warwick that will satisfy him, it would probably result in more We have printed a number of pla- good to the community, as Mr. Warwick has long been in the business of raising potatoes and would bring the

OIL, GAS AND COAL.

I have been pushing as rapidly as could, considering the many other things I have to do, the leasing of the land for the oil, gas and coal proposition. The leases have all been promised me and I have done all that could be done to expedite the leasing and it appears every day that the leases will finally be closed. That has been the status of this proposition for fully a month. As it is necessary to get always full; low rent. the leases, of course the delay in this matter holds the entire proposition back. Meanwhile the books are open for stock subscription and any one who wishes to subscribe for some stock has the privilege of doing so by calling at the office. As soon as the ground is leased the machinery can be purchased I shall continue pushing this matter along as rapidly as possible and it is only a question of The W. L. Douglas more time when there will be drilled three 2500 feet deep holes in this locality to test for oils, gas and coal. THE SEAWALL PROPOSITION.

While there has been more than the usual amount of talk about the setting on foot of the seawall proposition, I wish to call attention at this time to the substantial fact that through the initiative of the progressive members of the City Council a resolution has been put on record between \$500 and \$600. giving notification that an amendment to the charter would be offered providing for the voting of bonds to build this bulkhead.

This is one of the most difficult propositions to get started but it now seems that with the assistance of the Honorable Mayor and City Council rates of freight which the railroads that the people of Astoria will have have adopted; and an opportunity for voting on this project at an early date. We should turers have brought suit before the keep our minds single to the point in Interstate Commerce Commission for view, that of building the seawall, relief, final argument being heard on and there should be no jealousy as to March 4th and 5th; and who should have the glory of the accomplishment in case there should vantage of the spring business, which be any glory, something yet to be demonstrated. It will take the cooperation and good will of the ma- large part of our trade and commerce jority of the people to secure this depends; therefore be it improvement and while I am confident in my own mind that the propo- her of Commerce respectfully petisition if once placed before the people tions the Interstate Commerce Comwill be favorably acted upon, yet mission to render its decision on this those who are in favor of it should not raise any minor obstacles. As to in the next 30 days; and that a copy the details of how the proposition is of this resolution be forwarded to to be worked out there will be an op- that commission." portunity in due course given for every person to make his suggestion. Dr. W. C. Logan is chairman of this City Council committee and Dr. H. L. Henderson is the secretary. Mr. A. H. Smith is busily engaged in drawing up the necessary amendments to the City charter.

THE GOLDEN SPIKE.

The ceremonies of driving the last spike which will complete the North Store. Bank railroad to Vancouver will be held in that town on Wednesday. This is an important event marking a new commercial epoch in the Colum-

bia Valley. THE McCULLOCH.

The revenue cutter McCulloch put in its appearance during the past week and President Scholfield and myself went aboard and did what we could to make the officers welcome to Astoria. However, if there have been received any orders by these officers to make Astoria their permanent headquarters they were not aware of them.

THE ROSE FESTIVAL.

President Whitemore of the Rose Festival Association of Portland has visited us since the last meeting and it is desired that the citizens of Astoria determine as soon as possible whether or not they can see their way to participate in this festival. Mr. Whitemore says that practically all the leading towns of the state have determined to participate either in the parade or by furnishing a float. We have here a design for the float and he calculates that the cost will be
